

The easy way to connect your desktop or notebook to high-speed Wireless-A, -B, or -G networks

Connect your USB-equipped desktop or notebook computer to any wireless network with the Linksys Wireless A/G USB Network Adapter. This universal wireless network adapter connects your desktop or notebook to Wireless-A, Wireless-B, or Wireless-G networks, without the trouble of opening up the case of your desktop computer.

To install, simply plug the Adapter into any available USB port. (It's compatible with both USB 1.1 and 2.0 ports, but 2.0 will yield the fastest speeds.) It gets its power through the USB connection, so no power cord is necessary. The included Setup Wizard walks you through configuring the Adapter to your wireless network settings, step by step. The Wireless A/G USB Network Adapter is also compatible with Wireless-A and Wireless-G networks at data rates up to 54Mbps, and Wireless-B networks at data rates up to 11Mbps. And your wireless communications can be protected by 128-bit encryption, so your data stays secure.

The Wireless A/G USB Network Adapter's high-performance antenna lets you put your computer almost anywhere in the building, without the cost and hassle of running cables. Now you don't have to drill holes in your walls and climb through the attic or cellar to get connected to the network. Once you're connected, you can keep in touch with your e-mail, access the Internet, use instant messaging to chat with friends, and share files and other resources such as printers and hard disk storage space with other computers on the network.

So don't hassle with running cables through your house -- get connected the easy way with the Wireless A/G USB Network Adapter.

Universal wireless adapter connects your desktop or notebook to Wireless-A, -B, or -G networks

Data rates up to 54Mbps when used with a USB 2.0 port

Easy, no-tools setup on any desktop or notebook computer with USB support

Wireless communications are protected by up to 128-bit data encryption

Product Data

Wireless A/G USB Network Adapter

Features

- Supports Wireless-A, Wireless-B or Wireless-G networks
- Supports USB 2.0 for high speed data transfers
- Plug and Play operation for fast setup
- Supports Wi-Fi Protected Access™ (WPA) and up to 128 bit WEP encryption

Specifications

Model Number	WUSB54AG
Standards	IEEE 802.11a, 802.11b, 802.11g
Ports	USB
Cabling Type	USB 1.0/1.1/2.0
LEDs	Power, Link
Transmit Power	16dBm
Security features	WEP, WPA
WEP key bits	64, 128
Warranty	3 Years

Environmental

Dimensions (W x D x H)	91 mm x 71 mm x 23 mm (3.58" x 2.80" x 0.91")
Unit Weight	2.82 oz. (0.08 kg)
Power	USB Bus Power
Certifications	FCC, IC-03, Wi-Fi (A and G)
Operating Temp.	32°F to 150°F (0°C to 40°C)
Storage Temp.	-40°F to 185°F (-40°C to 70°C)
Operating Humidity	10% to 85% Non-Condensing
Storage Humidity	5% to 90% Non-Condensing
